SUMMARY

I am a full stack mobile app developer. I build mobile applications for businesses, individuals and organizations. I build the apps with Flutter and the backend REST APIs with Python and Flask.

SKILLS

Mobile: Flutter, REST API integration, Google Play publishing
Backend: Python, Flask, REST API design, PostgreSQL, SQLAlchemy, JWT authentication
Tools: GitHub, VS Code, Postman, Render

PROJECTS

Fix

- A local marketplace app for buyers, sellers and artisans.

SocialBex

- A social media promotion mobile app built with Flutter.

Jambixo

- A CBT exam practice app for students preparing for JAMB.

EDUCATION

Computer Science

Joseph Sarwuan Tarka University Makurdi
